## Learn how one Hunter Truck customer began their electrification journey

Page Trucking shares their strategy on diversifying their fleet, and why the Peterbilt 579EV was an important first step.

Hunter Truck - Buffalo sold their first zero-emission truck, a 2024 Peterbilt 579EV, to Page Trucking in Weedsport, NY. The truck is part of Peterbilt's alternative powertrains, offering efficiency and low maintenance. The purchase was supported by the New York Truck Voucher Incentive Program to reduce greenhouse gas emissions. Page Trucking, a family-owned company, has been in operation for almost 50 years and focuses on helping the community. The transition to electric trucks aligns with their commitment to cleaner air and meeting New York State's climate goals.

Page Trucking is proving that zero-tailpipe-emission transportation is a reality today. Hunter Truck is proud to partner with the teams at Page Trucking and Peterbilt to bring the benefits of these vehicles to the communities we serve.
