ASK THE EXPERT

We asked the leader of our Safety team for tips that customers can keep in mind to stay safe on the road this summer.

Q: "What should customers know when it comes to on the road safety?"

A: "Check tires daily, the hot weather increases tire pressure and blowout risk. Inspect inflation and tread."

A: "Monitor coolant levels - prevent overheating by keeping radiator and engine coolant within safe ranges."

A: "Test A/C systems and ensure the air conditioner works properly to avoid heat stress."

A: "Stay hydrated be sure to drink water regularly; limit caffeine and energy drinks."

A: "Rest in cool areas, and take breaks in shaded or air-conditioned spots."

A: "Check the forecast - stay alert for sudden summer storms."

A: "Plan for delays, you can expect more traffic and construction; build in extra time."
