

# THE OEM DEALER DIFFERENCE

With overall operating costs on the rise, now is the time to partner with a supplier that knows your business and your truck. You cannot always judge the *real* cost of repair by the labor rate and the cost of the parts. Here are some reasons why you can trust Hunter with the service of your truck:

## 1. COMPLETE, NO CONTACT SERVICE

In addition to pick up, drop off, and thorough sanitization of your truck: all service appointments, approvals, estimates, and communication can be conducted over phone, email, and text to ensure your safety.

## 2. ACCESS TO ALL ORIGINAL FACTORY EQUIPMENT INFORMATION FOR YOUR TRUCK

We know exactly what components are on your truck, and how to fix them.

## 3. WE WORK WITH ALL OEM COMPONENT VENDORS AND THEIR WARRANTIES

We know the warranties, and can verify if a repair is covered, which prevents you from paying for a possible covered repair. (Engine, transmission, cooling system, HVAC, axles, suspension, and drives)

## 4. OEM PARTS LOOK UP AND OEM PART SUPERSESSION BY VIN

This reduces the chance of getting incorrect parts, while some parts have improvements made to them, and others have rebuild kit capabilities.

## 5. ONE YEAR OEM PARTS AND LABOR WARRANTY

OEM parts installed by us are covered by all Hunter Truck dealerships 1 year or 100,000 miles, whichever comes first. (some exclusions may apply)

## 6. FACTORY TRAINED TECHNICIANS

This enables us to perform the diagnostics & repair the issue properly and efficiently, thus reducing the total labor on the job. This also reduces the chance of damage to some electronic systems from improper diagnostic procedures.

## 7. OEM DIAGNOSTIC SOFTWARE AND UPDATES

We are able to troubleshoot the vehicle accurately with the latest updated factory programs.

## 8. OEM OPERATING SOFTWARE UPDATES

We can install all available updates while your truck is in for service to keep it operating at maximum performance, efficiency, and accuracy.

## 9. STANDARD REPAIR TIMES

We use OE Standard Repair Times on most repairs. This helps us stay competitive with "Time & Material" repairs made. Whereas some repair facilities do not follow time repair guidelines.

## 10. EXPANSIVE PARTS INVENTORY

As a dealer, we have invested over \$2 million in inventory, which means we can get you back on the road quicker.
